Chairman,

Non Responsive

Congressional opposition to the Saudi-led coalition (SLC) in Yemen remains high. On 10 October, a group of bipartisan senators sent the attached letter to Secretary Pompeo questioning his recent certification that the SLC has taken "demonstrable actions to reduce harm to civilians," as required by the FY19 NDAA (Section 1290). This letter echoes many questions raised during the 20 September Section 1290 brief to congressional staff in which BGen Benedict (JS JS DDME) supported OSD(P) ISA ME and DoS. Complicating matters further, the 2 October disappearance of Jamal Khashoggi, a Saudi Arabian journalist and American resident, has resulted in bipartisan expressions of condemnation and concern on the Hill this week toward Saudi Arabia. Yesterday, two senators linked this criticism to legislative actions that could impact US support to the SLC. Senator Paul (R-KY) introduced legislation to cut off US military aid and assistance to Saudi Arabia until Secretary Pompeo determined Khashoggi was "alive and free." Senator Bob Menendez (D-NJ), Ranking Member on the Senate Foreign Relations Committee (SFRC), warned that the hold he placed in June on further foreign military sales of PGM kits to the SLC would continue as "a message to the Saudis." As Ranking Member, Menendez is one of four members who have the power to hold FMS under the congressional notification process.
